

International Master in Donation & Transplantation of Organs, Tissues and Cells

14th edition

October 201+ – June 201,

It consists of 60 ECTS and offers four different pathways with the following modular structure:

According to the itinerary chosen, students will follow 3 out of 4 blended modules of 10 ECTS each.

PRESENTATION

The 13th International Master in Donation and Transplantation of Organs, Tissues and Cells gathers the up to now efforts carried out by national and international organizations of this field. It takes advantage of the creation of the advanced European training framework, the use of internet, and collaboration agreements with several countries from Europe and USA.

Its goal is to bring together the knowledge, skills and best practices which benefits healthcare professionals working in the donation and transplantation field, tissue bankers and advanced cell therapies researchers by developing and updated educational program and issuing the Master University degree.

The program includes on-line training, face-to-face training with practical simulations, and an internship in a prestigious centre. Participants will have the opportunity to learn and to exchange knowledge with their colleagues, experts, tutors and the centres' staff.

THIS COURSE IS ADDRESSED TO

Healthcare professionals, or other science related professionals, willing to achieve specialised competences in the field of organ, tissues and cells donation for transplantation.

SUPPORTING ORGANIZATIONS

- Asociación Española de Bancos de Tejidos (AEBT)
- Centro Nazionale Trapianti (CNT)
- European Donation & Transplant Coordination Organization (EDTCO)
- European Society for Organ Transplantation (ESOT)
- Fundació Josep Carreras
- Grupo de Estudio la Infección en el Trasplante (SEIMC- GESITRA)
- International Society for Organ Donation and Procurement (ISODP)
- Organización Nacional de Trasplantes (ONT)
- Organització Catalana de Trasplantaments (OCATT)
- Programa de Terapia Celular de la UB (TCUB)
- Red Española de Terapia Celular (RED-TERCEL)
- Sociedad Andaluza de Trasplante de Órganos i Tejidos (SATOT)
- Sociedad Española de Cirugía Ortopédica y Traumatología (SECOT)
- Sociedad Española de Medicina Intensiva, Crítica y Unidades Coronarias (SEMICYUC)
- Sociedad Española de Terapia Génica y Celular (SETGYC)
- Sociedad Española de Trasplante (SET)
- Sociedad Madrileña de Trasplante (SMT)
- Societat Catalana d Anestesiologia, Reanimació i Terapèutica del dolor (SCARTD)
- Societat Catalana de Cirurgia Ortopèdica i Traumatologia (SCCOT)
- Societat Catalana de Medicina Intensiva i Crítica (SOCMIC)
- Societat Catalana de Trasplantament (SCT)

OBJECTIVES

- To provide healthcare professionals with the tools and resources that may support their work and the development of the multidisciplinary tasks in donor-transplant coordination, tissue banking and cell therapy programs.
- To facilitate the switch from the theoretical knowledge into the practice, through a critical reflection about their own experience.
- To optimize decision-making in the organ procurement process, to boost teamwork and to promote the use of communication technologies to share information, knowledge and best practices.
- To establish a consulting network with the participation of other allied international institutions to building up safe and quality transplant systems.
- To boost the increase in the donation rates and, consequently, in the transplantation rates among the countries represented by participants.
