Transplant Procurement Management Advanced International Training Course

Barcelona, Spain | 12th-16th November 2018

With the support of:

Ocatti Organización Catalana de Trasplantaciones

Oнт Organización Nacional de Trasplantes

ADDRESSED TO

- Health professionals who are involved in any of the steps of donation process, particularly physicians and senior nurses working in referral units such as: critical care units, (recovery and emergency rooms), with a view to empower them with the professional competences required to develop organ and tissue procurement.
- Donor and transplant coordinators wishing to update their knowledge and reinforce their skills
- Managers in charge of transplant programs.

OBJECTIVES

- To conceptualize the objectives of the donation process.
- To promote direct and efficient application in the own work place in order to accomplish more success.
- To develop health professionals’ knowledge and skills as well as raise public awareness regarding the importance of organ donation.
- To share professional experience and knowledge to encourage the creation and development of international networks.

EDUCATIONAL METHODOLOGY

- Theoretical conceptualization before the course through a virtual classroom for academic support.
- Methodology based on learning through experience, acknowledging that practice improves theory.
- Leadership and team building skills developed through case studies, outdoor training and workshops.

ACADEMIC QUALIFICATION

A diploma by TPM-DTI Foundation will be awarded after successful completion of the course.

The course may be validated with 10 ECTS credits of the TPM Master's degree, with a specific diploma by the University of Barcelona.

Recognized by the Transplant Committee of the Council of Europe
